

ABSTRACT OF THE DISCLOSURE

5 A method of treating a patient suffering from a  
disease, disorder or condition includes the  
administration to the patient of a therapeutically  
effective amount of botulinum toxin of a selected  
serotype until the patient experiences loss of  
clinical response to the administered botulinum toxin  
and thereafter administering to the patient a  
10 therapeutically effective amount of another botulinum  
toxin of a different serotype.
